

BlackWatch Studios is pleased to announce:

A Five Part Basic Level Class:

**Evenings 7:00 pm until 9:00 pm**

This is the Photoshop class many people have been requesting to help clean up and enhance your portraits creating the near flawless effect your subjects will swoon for.

### **Class 1: The Foundation- Prerequisite for all classes**

This class will teach you the fundamentals needed to get started: Explore the different tools available, layers, layer opacity, layer masks, blending modes, and an introduction to filters. Also, an overview and strategy for your workflow will be explored. Dates offered: April 15, May 17

### **Class 2: Retouching Tools**

Covers cropping and straightening to improve overall composition, removing objects as well as retouching skin using brushes, cloning tools, and the healing tools. Focus is on natural looking skin without a “plastic” look from excessive blurring. Dates offered: April 22, May 24

### **Class 3: Color Correcting**

Strategies for correcting color and skin tones throughout an image will be demonstrated including how to correct an image that is lit from two different light colors. Dates offered: April 29, June 7

### **Class 4: Photoshop Plastic Surgery**

Covers methods to correct major issues such as making bulges disappear from a bad pose, enhancing curves, slimming, etc. using transformation tools, liquefy, and dodging and burning. Also covers teeth and eyes. Eyes can be enhanced to sparkle more or appear larger! Dates offered, May 6, June 14

### **Class 5: Finishing & Tricks**

Finishing the image includes adjusting the exposure; blurring certain areas for de-emphasis; and sharpening. Also covers resizing pictures for different purposes. Finally some tricks and techniques are shown to make an image “pop”!  
Dates offered May 13, June 21

**Cost of all 5 classes \$200, or \$50 per individual session**  
**Sign up via email: [Register@blackwatchart.com](mailto:Register@blackwatchart.com)**
