# FINE ART NUDE LIGHTING TECHNIQUES

WITH MODEL TINA GRIMM

## Date TBA-

Tell us when you are available, and we'll schedule the sessions accordingly.

Cost:  
**\$125.00 PER  
PHOTOGRAPHER**

An amazing way to learn to pay attention to highlight and shadow!

This is going to be a very unique experience! Fine Art Nude Lighting requires focus and attention as your light patterns are as revealed as the model is.

To ensure that you get the most out of this we will be running shorter sessions (2 hours) with only 2 photographers in a session (Photographers that want 1 on 1 instruction can pay \$250.)

The studio will be pre-setup with different backdrops and sets with the lights in a "rough position" to maximize your time. We'll spend no more than 15 minutes in formal lecture and then the

rest of the time will be spent guiding you through different techniques and letting you setup the lights, meter them, take some shots, tweak the lights, then take that final really cool shot!

We want you to guide you through as many of the technical skills as you can comfortably handle. If you get in a jam we'll be right there to step in so you don't waste your time and money.

Some things to know:

- Tina is wonderful at making people feel totally comfortable. We've seen people forget that she had no clothes on!

- Tina was that beautiful nude model in David Busch's Bucket List book that looked like a classical painting!
- Pictures where Tina's face is showing will require special approval from her to be displayed or posted on the Internet.
- Tina isn't expecting any pictures so you can feel free to play with different camera techniques without the pressure of producing great shots (although we'll bet you get several!)
- Everything will be tasteful, educational, and a wonderful experience for you!
